

PLANT FOODS AND GARDEN PROBIOTICS

Maximise Your Soil and Gardens Inner Health

UNLOCK YOUR SOILS POTENTIAL

Increase the ability of your soil to uptake nutrients and fertiliser, helping your garden grow bigger and stronger.

DROUGHT PROOF YOUR GARDEN

Lower water costs and protect your plants from drought by improving plant water use.

GOOD BACTERIA FOR YOUR GARDEN

Bacillus S. is well known for its ability to naturally induce growth responses, and also has the ability to fix overused or imbalanced soil.

BIOWEED®

Home of SAFE, HEALTHY and SUSTAINABLE garden solutions.

Returning OUR LAND to the way NATURE INTENDED

ARE YOU TIRED OF BEING STUCK USING THE SAME CHEMICALS IN YOUR GARDEN OR BUSINESS?

While making things easier, years of dependence on synthetic chemicals has left our soils and plants starved of the natural health and nutrients that were once abundant in our grandparent's day.

Our goal as a business is to help correct the current imbalance we see in our environments.

Our naturally based products have been developed to help repair years of abuse, in a safe, healthy and sustainable way.

All of our products are naturally produced and are safe for use around your family, garden, pets or business. Best of all, our products are Australian owned, made and backed by over 20 years research and development.

WHY CHOOSE BIOWEED?

NATURAL PINE OIL

Made from natural and sustainable sourced hand tapped pine oil, certified organic input * and glyphosate free.

PEACE OF MIND

With no withholding periods, Bioweed is safe for animals and people to use the area immediately after the area is dry.

WORKS FAST

Fast acting on most weeds and grasses and perfect for use in gardens, paths, driveways, around buildings and as a spot spray in lawns.

FEATURES

- ✓ Visible results within 1 hour on most weed types
- ✓ Controls a wide range of common weeds and grasses
- ✓ Owned and made in Australia
- ✓ Non residual - breaks down to carbon within 72 hours
- ✓ Kills weeds and suppresses their seeds
- ✓ Glyphosate and synthetic chemical free

*This product is allowable for use on farms certified to the Australian Certified Organic Standard.
