

BIOWEED® ORGANIC

Herbicide Concentrate

A Safe, Organic Weed Control Alternative

The Healthier Way to Spray

Bioweed is wholly plant derived and works by stripping the layer of wax off the weeds surface. As it is not a systemic herbicide, it will not harm the environment around it. Sourced from sustainable pine forests and maintained by indigenous stewards. Providing income and supporting the local community.

PERFECT FOR:

- Parks and gardens
- Schools
- Organic Farms
- Hospitals

Bioweed Organic Benefits

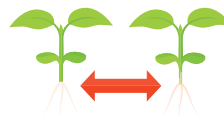

Organic Certifications - ACO, NAASA and APVMA approved for use around farms and food production

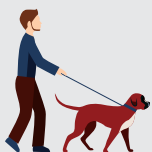

Suppresses Seeds - Leading to a reduction in spraying overall

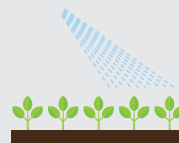

Made From Pine - 100% natural product sourced from pine trees

Non Residual Herbicide - breaking down in the soil within 72 hours

With no Withholding Period - Bioweed is safe for animals and people to use the area immediately after the area is dry.

pH Neutral - will not affect your soils pH
