

BIOTIC BOOSTER

MICROBIAL PLANT FOOD

BIOTIC BOOSTER

Provides strong and healthy plant growth with enhanced flowering, fruiting and root system development.

HOW TO USE

1. Mix one levelled scoop (15g) with 10L of water. Note: 1.5g of Biotic Booster is to 1L of water.
2. Upon dilution, apply Biotic Booster directly to the soil root zone.

INDOOR PLANT BOOSTER

A unique soil conditioner that is super easy to use and will help brighten up all of your living spaces.

HOW TO USE

1. Water plants before use to assist with absorption of the Booster into the soil.
2. Pour the recommended amount of Indoor Plant Booster directly onto soil around the base of the plant.
3. Repeat monthly or as required to maintain healthy plant life.

Small - Medium Size Plant | 50 -100ml
Medium - Large Size Plant | 100 - 150ml

GARDEN PROBIOTICS

UNLOCK YOUR GARDEN'S FULL POTENTIAL

RE-250 SOIL ENERGISER

RE-250 is packed full of beneficial bacteria bacillus. Bacillus bacteria is the powerhouse of the soil microbes and produces a wide range of benefits that have now been brought to the home gardener.

HOW TO USE

1. Mix 2ml of RE-250 per 1L of non-chlorinated* or rain water.
2. Allow to sit for 20min for Bacillus to multiply.
3. Apply solution directly to the soil.
4. Apply fortnightly or as necessary to establish a healthy population of bacteria.

FP-60 PROBIOTIC SPRAY

There are billions of bacteria in each bottle of FP-60, mainly Bacillus S. This bacteria will naturally fix overused or imbalanced soil while creating natural barriers to harmful bacteria, fungus and diseases.

HOW TO USE

1. Mix 1ml of FP-60 per 1L of non-chlorinated* or rain water.
2. Allow to sit for 20min for Bacillus to multiply.
3. Apply solution as a fine spray to plant foliage, to the point of run off.
4. Apply weekly or as necessary to establish a healthy population of bacteria.
