

BIOWEED® ORGANIC

Herbicide Concentrate

A Safe, Organic Weed Control Alternative

A healthy way to spray

Bioweed is wholly plant derived and works by stripping the layer of wax off the weeds surface. As it is not a systemic herbicide, it will not harm the environment around it. Bioweed has a no-withholding period and is non-residual therefore it is perfect to use around the farm.

PERFECT FOR:

- Livestock Properties
- Orchards
- Fruit Producers
- Equine Facilities and Properties
- Broadacre

Bioweed Organic Benefits

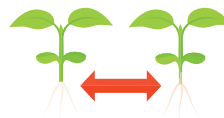

Organic Certifications - ACO, NAASA and APVMA approved for use around farms and food production

Kills both Weeds and their Seeds - leading to a reduction of spraying overall

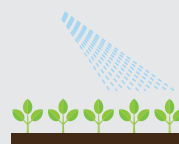

Natural Plant Extract - 100% natural product sourced from pine trees

Non Residual Herbicide - breaking down in the soil within 72 hours

No Withholding Period - Safe for People, Horses and Livestock

pH Neutral - not acidic and will not burn
